uvex Custom Bridge eyewear Designed for Asian Fit

protecting people

EMERGENCY
STOP

Safety eyewear specially designed for Asian fit

Every face is unique. In order to provide full protection, safety eyewear must fit perfectly - regardless of the situation. This is why we have developed the uvex CB product line specially for the Asian market: Designed with an Asian fit, the eyewear adapts optimally to your nose and cheekbones for a comfortable, customized fit.

The innovative Custom Bridge eyewear from uvex are made in Germany and meet the highest safety and comfort standards – making them an indispensable work companion.

MADE IN GERMANY 

Find out more:

uvex hypervision CB

comfortable and ergonomic

The ergonomic nose bridge specially designed for Asian facial shapes ensures a secure and comfortable fit.

The cellulose acetate lens provides reliable protection against chemical splashes and is easy to replace.

The panoramic lens and translucent frame ensure an almost unrestricted field of vision. The lens also features an anti-fog coating on the inside.

The headband can be adjusted to suit different head sizes and facial shapes.

The headband can be adjusted to suit different head sizes and facial shapes.

uvex super OTG guard CB

a perfect solution for every workplace

The flexible hybrid system means the safety eyewear to be adapted to any requirement. Switch between a headband and side arms in just a few simple steps.

The lightweight safety eyewear weigh just 67 grams (with headband) or 74 grams (with side arms).

Secure protection and optimal vision: The large panoramic lens offers an extra-wide field of vision.

The proven uvex supravision lens coating technology reliably protects against scratching and fogging during the work day.

uvex megasonic CB

for an all-round vision

20% wider field of vision: The panoramic lens has an innovative frameless design that offers a better field of vision than comparable safety goggles.

The 30 mm wide, soft headband ensures that the safety goggles fit securely in any situation.

The large panoramic lens has an almost unrestricted field of vision with optical class 1.

With a flexible frame, these safety goggles adapt perfectly to any facial shape bringing first-class wearer comfort.

Specially designed recesses for side arms make these safety goggles ideal for wearing over prescription spectacles.

The uvex megasonic CB is highly compatible and can be combined with other uvex PPE (e.g. respiratory protection).

uvex OTG SN CB

fashionable and protective

The ergonomic nose bridge specially designed for Asian facial shapes ensures a secure and comfortable fit.

The large internal volume allows for prescription spectacles to be comfortably worn underneath.

The side arms can be individually adjusted to any head size and facial shape for an optimal ergonomic fit.

The proven uvex supravision lens coating technology reliably protects against scratching and fogging during the work day.
