# uvex CBR65 and CBR75

The ideal tint for the  
construction industry

Whether in bright or overcast conditions, your team is exposed to frequently changing light conditions - causing to eye fatigue.

The uvex CBR65 and uvex CBR75 safety spectacles are the ideal solution: the tint provides reliable protection against bright light and also ensures optimum visibility when working in shady conditions.

# uvex CBR65 / CBR75

## Contrast

For clear and accurate vision in every situation - even in diffuse and changing light conditions

## Bluelight reduction

Protection against harmful radiation from blue light - e.g. ideal for night work with bright floodlights

## Relaxed vision

Reduce eye fatigue, even during extended period of use - improve concentration and enhance attention.

## 65/75% transmission

Optimum protection against sun glare - yet bright enough for working in shady conditions

## The ideal tint for the construction industry

### uvex pheos cx2 CBR65

Reliable protection against construction dust

### uvex sportstyle CBR75

Stylish, lightweight design

reddot award 2016 winner

### X-tended eye shield

The soft component connected directly onto the lens offers additional protection and comfort

### X-Twist technology

Ergonomic adjustment to all head shapes thanks to the slight spring effect of the side arms

### Optimum ventilation

The functional safety spectacles provide a pleasant and relaxed environment around the eyes
