uvex CR

Autoclave safety eyewear that goes further

protecting people

**There is autoclavable safety eyewear.
And then there is uvex CR.**

Innovative coating technology

**The first autoclavable safety eyewear
with anti-fog performance**

uvex has developed the first autoclavable safety goggles with anti-fog coating for specialist requirements in laboratories, clinics, cleanrooms and food manufacturing.

From ultra-light safety spectacles to goggles with a panorama lens, uvex CR is the ideal safety eyewear for all areas of application and specifically designed for repeated autoclave sterilisation.

Beside an exemplary level of protection, uvex CR eyewear offers complete functionality, outstanding wearer comfort and innovative design. First class safety eyewear "Made in Germany".

uvex CR for medical and pharmaceutical industries

Sterile safety eyewear for every situation

From complex procedures in the operating room to working in Pharmaceutical production, employees must be able to rely on their protective equipment at all times.

uvex CR eyewear is specially designed to meet the highest demands from Medicine and the Pharmaceutical industry. The unique anti-fog coating ensures excellent anti-fog performance, during physically demanding work as well as in extremely warm and damp conditions.

uvex CR eyewear can be autoclaved up to ten times (20 minutes each cycle, at 121°C). If temperatures are higher or sterilisation carried out more frequently, replacement of eyewear is recommended, or lens replacement in the case of uvex ultrasonic CR wide-vision goggles.

Always have everything in view
with fog free uvex CR safety eyewear.

uvex super f OTG CR

Autoclavable safety eyewear for optimum vision

A permanent anti-fog coating on a lens which provides a wide field of vision, ensures excellent wearer comfort, protection and functionality. Its shape enables it to be worn over prescription spectacles.

The extremely flexible soft ear pieces adapt perfectly to the head shape and ensure a secure and pressure-free fit, even when worn for extended periods.

The uvex super f OTG CR is non-allergenic and free of harmful substances. It is "Made in Germany" and meets the specifications of optical class 1 and EN 166 in its entirety.

The uvex super f OTG CR is suitable for use over prescription spectacles.

uvex ultrasonic CR

Autoclavable wide-vision goggles with outstanding wearer comfort

At only 98g, the uvex ultrasonic CR is an extremely light autoclavable wide vision goggle. The permanent anti-fog lens gives a panoramic field of vision at all times.

Exceptional wearer comfort through duo component technology (soft seal – hard shell) and the adjustable silicon headband. Indirect ventilation ensures a pleasant and comfortable interior environment.

The uvex ultrasonic CR meets the specifications of optical class 1 and EN 166 in its entirety. The eyewear is manufactured in Germany from allergenic materials which are free of harmful substances.

Simple lens replacement for the uvex ultrasonic CR.
