

Helix® glove comparison: All-new impact protection gloves

Advanced technology meets uncompromising safety. It's what defines the Helix® Series. The new Helix® 3013IMP, 3014IMP and 3004IMP are extremely flexible, 18-gauge knitted gloves with cut level F / A6 (3013IMP / 3014IMP) or a cut protection level D (3004IMP). The Helix® 3004IMP stands out with its innovative Bamboo TwinFlex® technology integrated into the liner, delivering not only outstanding protection but also exceptional comfort for all-day wear.
