## uvex pheos cx2 pushes boundaries

uvex's fastest selling safety spectacle just got better. The addition of innovative features further enhance the protective performance and wearer comfort. New X-tended eye shield and X-Twist side arm technology are proven to provide complete protection of the eyes and deliver the ultimate fit.

### X-Twist Technology

Soft side arms give a customised, non-slip fit.

### X-tended eye shield

The addition of soft components onto the frame extend the eye shield area to further protect the eyes against fine particles.

### Close fit

The distance between the forehead and spectacles is measured at four different points to ensure the right curvature for most facial shapes.

- 1 The x-twist technology features soft arms for pressure free fit and wearer comfort.
- 2 Thanks to uvex lens coating technology, all work environments are covered from highly abrasive, dusty, dirty to hot and humid workplaces for wearer comfort and protection.
- 3 The x-tended eye shield features extra protection at brow and improved fit and comfort due to soft nose piece.
- 4 The metal-free hinges fold effortlessly. Innovative material ensure consistently smooth movement of the side arms.
- 5 The sophisticated side arms design provides exceptional ventilation and helps to improve the climate around the eye.
