

## MACSOLE® ADVENTURE 2.0

Heckel revisits its flagship range

The Heckel **MACSOLE® ADVENTURE 2.0** range is specially designed for outdoor work, for tradesmen and all those looking for an authentic outdoor look. Its **MACSOLE®** rubber soles with deep treads, its rubber scuff cap, reinforced sides and stable ankle support system make this the ideal range for working in difficult conditions. Totally non-magnetic this shoe offers lightness and flexibility.

The models in the **MACSOLE® ADVENTURE 2.0** range now come with a lime-coloured lining and reflective elements, bringing them into line with the trends for outdoor products for the general public.

The result is a collection of models covering a very varied spectrum of uses and offering exceptional weather resistance. Flexible and extremely comfortable, these shoes are among the most popular with professionals.

### MACEXPEDITION 2.0 + LOW 2.0

S3 CI HI WR HRO SRC

Its **textile upper** and **GORETEX®** lining guarantee a waterproof, but breathable shoe. **100% metal-free** and **featuring a MACSOLE® Adventure**, rubber sole, this model is perfectly suited to wet outdoor environments and green spaces.

### MACCROSSROAD BROWN 2.0 + LOW+2.0

S3 CI HI HRO SRC

These models have a **MACSOLE® Adventure** rubber sole, an **oiled, liquid-resistant grain leather upper**, a **rubber scuff cap**, and are **reinforced at the back and the sides**. Particularly good for working on irregular surfaces or in humid environments, the **MACCROSSROAD** is the brand's bestseller!

### MACWILD LOW 2.0+2.0

S1P CI HI HRO SRC

The combination of the **suede and textile upper** and the **mesh lining** gives this safety shoe **outstanding breathability**.

This model is specifically designed for working on irregular surfaces and in dry environments.

## MACSOLE® RUBBER SOLE

slip resistant to SRC standard | oil and hydrocarbon resistant | chemical resistant | heat resistant outsole, up to 300°C (HRO) | antistatic

1  
**REINFORCED AT THE BACK AND SIDES**

2  
**RUBBER OVERCAP**  
Very **good abrasion resistance** | longer shoe life | suitable for those working in a crouching or kneeling position | excellent **abrasion and cut resistance** | wide ground-bearing surface | self-cleaning sole profile | **all-terrain profile** with deep treads | sharp tread profile | defined heel with sharp edges

Width 11

- excellent abrasion and cut resistance
- wide ground-bearing surface
- self-cleaning sole profile
- all-terrain profile with deep treads
- sharp tread profile
- defined heel with sharp edges

## CELL TECH HYGIENIC INSOLE

removable | anatomically shaped

shaped textile top layer and large perforations for easy wicking of perspiration

EVA underneath for better shock absorption

## MEMBRANE GORE-TEX®

microporous membrane integrated in the shoes | **waterproof** | perfect **breathability** guarantees an **ideal climate** for the foot | suitable for outdoor and indoor wear

## METAL-FREE PUNCTURE RESISTANT MIDSOLE

**1100N resistant** | **100% composite** | **flexible** | **non-magnetic** | protects **100% of the surface of the foot** (compared to 85% on average for steel midsoles) | **lighter** than steel midsoles | **less cold and heat conductive** than a steel puncture resistant midsole.

## METAL-FREE TOE CAP

**100% METAL FREE**

**200J resistant** | **100% non-magnetic** | **painless** due to its ergonomic shape | **wide fitting** | **20% lighter** than a conventional steel toe cap | **less cold and heat conductive** than a steel toe cap
