Multi award winning design

uvex has redefined safety footwear. A revolutionary level of performance has been achieved in weight, dynamic shock absorption, stability, upper design, fit and climate control which has made this product the fastest growing and most popular safety shoes in the company's history.

Next Level Equipment

PU Sole

All sole materials are free from silicones, plasticisers and other paint wetting impairment substances.

Outstanding flexibility. Optimum wearer comfort.

The ergonomically design of the outsole supports the natural movement and flexibility of the foot

Compact anatomical shape with good side and ankle twist stability

High abrasion-resistant PU sections ensure secure stepping and rolling of the foot, which helps prevent accidents

Jointed insert for climbing ladders securely

Pivot point eases turning when standing

Sole made from dual density polyurethane with excellent slip resistance

uvex multiple fit system allows footwear to be adapted by changing the insole creating a different fit for enhanced comfort.

uvex tune-up arch support insoles designed to increase wearer comfort by providing optimum support for the arches of the feet.

For more information contact your local uvex representative.

Male + female specific last

Sizes 35 to 40 (3 to 6.5) of the uvex 1 range are designed and developed specifically for the contours of the female foot. The uvex 1 ladies footwear range is also available and comes in sizes 3 to 9 (85618 and 85628).

Features

Lightweight construction. Reduced fatigue.

A lower weight reduces the strain on the body and also reduces risk of injury and wear. This is guaranteed by the consistent lightweight design principle of uvex 1 safety shoes. Feel the benefit every single day with the lightest uvex shoe in its class.

100% more shock absorption. Comfort in 3 dimensions.

The uvex 1 multilayer shock absorption system comprising a double-layered uvex 1 PU outsole and comfort insole. Additional shock absorption in the heel and the front of the foot helps protect the musculoskeletal system. The energy absorption in the heel is twice that required by EN ISO 20345. Pure walking comfort.

Outstanding stability. Reliable support and safety.

External visible heel basket integrated in the sole ensures stability, sure-footedness and additional protection. The 'x-tended' support model offers additional sideways support and enhanced protection against ankle twisting and impact. Both sole versions securely enclose the foot, without limiting flexibility.

uvex monoskin shaft design. Pressure-free, comfortable fit.

The completely metal-free uvex monoskin upper shaft made from hightech microfibre or leather ensures outstanding wearer comfort without pressure points and offers extended product life due to virtually seamless manufacturing.

Metal Free

Toe cap (and penetration resistant midsole in S3 versions)

uvex 1

Product code 85448 (shoe) / 85458 (boot)
Standard EN ISO 20345:2011 S2 SRC. ESD rated
Upper Microvelour
Colour Black, lime
Toe cap Metal free
Sizes 3 to 15

uvex 1 perforated

Product code 85318 (shoe) / 85328 (boot)
Standard EN ISO 20345:2011 S1 SRC. ESD rated
Upper Microvelour
Colour Black, blue
Toe cap Metal free
Sizes 3 to 15

uvex 1 x-tended support

Product code 85128 (red) / 85118 (grey)
Standard EN ISO 20345:2011 S1 SRC. ESD rated
Upper Microvelour
Colour Black, red / Black, grey
Toe cap Metal free
Sizes 3 to 15

uvex 1 S3

Product code 85162 (width 11) 85163 (width 12) shoe
Product code 85172 (width 11) 85173 (width 12) boot
Standard EN ISO 20345:2011 S3 SRC. ESD rated
Upper Microvelour
Colour Black, red
Toe cap Metal free
Sizes 3 to 16

uvex 1 leather

Product code 85522 (shoe) / 85552 (boot)
Standard EN ISO 20345:2011 S3 SRC. ESD rated
Upper Leather
Colour Black, blue
Toe cap Metal free
Sizes 3 to 16

uvex 1 ladies

Product code 85618 (perforated) / 85628
Standard EN ISO 20345:2011 S1 SRC. ESD rated (perforated)
Standard EN ISO 20345:2011 S2 SRC. ESD rated
Upper Microvelour
Colour Grey, pink
Toe cap Metal free
Sizes 3 to 9
