uvex 1 business

So comfortable and flexible, you wouldn't know it's safety footwear

Whether you're in the office or on the factory floor, the uvex 1 business safety footwear looks stylish paired with chinos, a suit or work trousers.

Providing reliable protection against workplace hazards, the new extra-wide steel toe cap protects your toes against falling objects and impacts while maintaining high levels of comfort. The flexible, non-marking, slip-resistant mono polyurethane sole features a soft EVA insert for increased comfort. Innovative uvex climazone technology helps regulate the internal temperature of the footwear, protecting feet against excessive perspiration. The removable antistatic insole, with a moisture transport system, then wicks away any moisture, keeping feet comfortable throughout the day. These smart lace-up shoes and boots are the ideal choice for those who work in both office and factory environments and place equal value on style, safety and comfort.

High wearer acceptance

This ultra-lightweight range of safety footwear in a modern business look is available in protection levels S2 and S3. With 3 colour options - stylish blue, black or grey makes this range ideal for those looking for time efficiency as it takes you seamlessly from a meeting to the factory floor.

Proven safety

The extra-wide steel cap, metal-free, penetration-resistant insert and non-slip outsole, which exceeds the requirements of the standard for shock absorption by almost 100 %, provide optimum protection.

Breathable materials

Highly breathable, chrome-free microvelour or leather materials, with antistatic insole which has been developed to wick away moisture, keeping feet comfortable throughout the day.

Comfortable fit

The innovative easy to clean, abrasion resistant microvelour material with soft padding and insole with additional shock absorption around the heel and forefoot guarantee a pressure-free fit.

clima zone

General features:

- Modern, lightweight and flexible
- Available in S3 and S2 this range is safe, stylish and super comfortable
