uvex

uvex 1 trainer

Feel and look
your best

**Keeps pace with your active lifestyle
both on and off the job**

On your feet all day? Want comfortable, but stylish safety footwear? The uvex 1 trainer delivers all that and more.

Designed for those that spend most of their working day standing, walking or generally active, the uvex 1 trainer provides comfort, support, cushioning and high levels of slip resistance. The breathable, flexible, lightweight materials feel like you are wearing a sports trainer, with a modern look straight from the high-street.

The uvex 1 trainer helps you look and feel good while at work making it easier to remain PPE compliant.

out more on the
uvex 1 trainer

General features:

- Sleek sports styling, influenced by the high street
- Ultra-light, flexible and highly breathable allowing you to move effortlessly throughout your day
- Suitable for people allergic to chrome. Made from synthetic materials
- Elastic 'speed' laces allow the shoes to be individually and quickly adjusted, slipped on or off
- Scuff cap helps protect the upper material for longer-lasting wear
- Pull tab for an easy on off fit

Protection features:

- Non-metallic construction for natural, flexible movement of the foot
- Metal-free toecap: anatomical shaped to promote biologically-normal structure and function. Offers good lateral stability and no thermal conductivity
- Metal-free, highly flexible, penetration-resistant midsole
- Meets the ESD specification with volume resistance under 35 megaohms

Comfort features:

- Virtually seamless design to eliminate rub points, for exceptional all day comfort
- Soft textile upper delivers high levels of breathability
- Mesh lining allows feet to breathe
- Soft padded tongue and collar enhances comfort
- Removable comfort insole made of 73% recycled polyurethane with no impact on performance. Antistatic with moisture control system. Noticeably enhanced shock absorption
- Dual-density PU anti-fatigue, flexible sole: optimum slip resistance, exceptional shock absorption in the heel, forefoot and offers good arch support

Protective toecap

- Metal-free toecap
- Scuff cap helps protect the upper material for longer-lasting wear.

Speed Laces

- Elastic 'speed' laces allow the shoes to be individually and quickly adjusted, slipped on or off.

Pull tab

- Pull tab for an easy on off fit
- Reflective element on logo and pull tab increases the wearer's visibility to others.

uvex WEARABILITY

The key to safety footwear compliance

At uvex we know the best PPE is the PPE that gets worn - which is why we design **WEARABILITY** into every product we make.

But what do we mean by that? **WEARABILITY** = increased compliance + improved wearer wellbeing. It's PPE that doesn't get in the way allowing you to get on with your day and focus on the task at hand. Ultimately, it's the perfect balance of four main factors: all day **comfort**, proper **fit**, product **performance** and modern **style**.
