uvex-safety.co.uk

PPE for the construction industry

The safety challenges in the construction industry are diverse, and exist in all activity phases - from preparatory site work, to build, to fit-out. To deliver projects on time, to specification and on cost requires flawless synergy between all teams. The same is true for an appropriate and complementary range of personal protective equipment.

Just as construction companies and alliances work hard to differentiate their 'offer', so original manufacturers of PPE, such as uvex, must be able to prove that their products and services make a measureable, sustainable contribution to worker safety, project delivery and cost control.

With protecting people at its core, uvex PPE incorporates numerous technologies to enhance safety, functionality and wearer comfort. By doing so, our products not only keep workplace hazards to a minimum, we can help prevent long-term health risks, and enhance employee wellbeing - which in turn has a positive effect on performance and productivity.

uvex i-5

uvex i-5

Frame: W 166 FT CE
Weight: 29g

Art. No. 9183265
Coating uvex supravision excellence
Norm EN 166, EN 170
Colour anthracite, blue
Lens PC clear UV400
2C-1.2 W1 FTKN CE

Art. No. 9183281
Coating uvex supravision excellence
Norm EN 166, EN 172
Colour anthracite, lime
Lens PC grey 23% UV400
5-2.5 W1 FTKN CE

Reliable protection thanks to the innovative, modern design: with its x-tended eyeshield and sideshield, the uvex i-5 provides reliable protection for a variety of applications. Sophisticated features ensure superior wearer comfort even when worn for long periods.

uvex i-works

uvex i-works

Frame: W 166 FT CE
Weight: 26g

Art. No. 9194171
Coating uvex supravision excellence
Norm EN 166, EN 170
Colour anthracite, blue
Lens PC clear UV400
2C-1.2 W1 FTKN CE

Art. No. 9194270
Coating uvex supravision excellence
Norm EN 166, EN 172
Colour anthracite, grey
Lens PC grey 23% UV400
5-2.5 W1 FTKN CE

Art. No. 9194365
Coating uvex supravision excellence
Norm EN 166, EN 170
Colour black, yellow
Lens PC amber UV400
2C-1.2 W1 FTKN CE

uvex i-works combines the best features of uvex safety spectacles. The light, sporty design and the panorama lens ensures maximum comfort even when worn for long periods. Soft, duo-component arms provide for a comfortable, non-slip fit.

uvex pheos

uvex pheos

Frame: W 166 FT CE
Weight: 29g

Art. No. 9192225
Coating uvex supravision excellence
Norm EN 166, EN 170
Colour black, green
Lens PC clear UV400
2C-1.2 W1 FTKN CE

Art. No. 9192285
Coating uvex supravision excellence
Norm EN 166, EN 172
Colour black, grey
Lens PC grey 23% UV400

Coating uvex supravision excellence
Norm EN 166, EN 172
Colour black, grey
Lens PC grey 23% UV400
5-2.5 W1 FTKN CE

With its compact, lightweight design, the uvex pheos cx2 sonic is a welcome companion for any job. These functional wide-vision goggles offer impressive comfort and, thanks to uvex supravision coating technology, provide a clear field of vision even in extreme climates.

uvex goggles

uvex u-sonic

Art. No.	9308245
Coating	uvex supravision excellence
Norm	EN 166, EN 170
Colour	anthracite, lime
Frame	W166 34 B CE
Lens	PC clear UV400 2C-1.2 W1 BKN CE
Weight	72g

The ergonomic design with flexible and soft components enables it to adapt to any facial shape, while its light weight and low pressure make it particularly comfortable to wear.

uvex ultrasonic

Art. No.	9302245
Coating	uvex supravision excellence
Norm	EN 166, EN 170
Colour	orange, grey
Frame	W166 34 B CE
Lens	PC clear UV400 2C-1.2 W1 BKN CE
Weight	83g

Sporty design with a wide field of vision. The Flexible soft component adapts to the wearer's face and ensures full protection for the eye area, including spectacle wearers.

uvex megasonic

Art. No.	9320265
Coating	uvex supravision excellence
Norm	EN 166, EN 170
Colour	anthracite, blue
Frame	W 166 34 BT CE
Lens	PC clear UV400 2C-1.2 W1 BTKN CE
Weight	96g

The megasonic's revolutionary frameless lens design has an exceptional field of vision while the ergonomic flexible seal has an ultra-comfortable fit.

uvex supravision extreme

Lenses coated with uvex supravision extreme have a scratch-resistant exterior and permanent anti-fog interior. Fogging is not possible as the coating does not become saturated. It is most suitable for working areas with long-term exposure to humidity and a high level of dirt.

uvex supravision excellence

Lenses coated with uvex supravision excellence are anti-fog (at least 16 seconds, norm requires 8 seconds) on the inside, while the outside offers extreme scratch and chemical resistance. The anti-fog coating is permanent and won't wash off, even after repeated cleaning. The lenses are also easy to clean and less susceptible to dirt due to the non-stick nanotechnology.

uvex supravision plus

Lenses coated with uvex supravision plus have long lasting anti-fog properties on both sides (at least 30 seconds, norm requires 8 seconds), scratch-resistant and anti-static. The anti-fog coating is permanent, even after being cleaned several times. This lens coating is particularly suitable for areas with high humidity.

uvex supravision sapphire

Lenses coated with uvex supravision sapphire are extremely scratch-resistant on both sides and offer excellent resistance to chemicals. The coating system has been refined by nanotechnology and offers significantly increased non-stick properties and is therefore easier to clean. Watery and greasy dirt can be removed easily.

Marking on lens

Scale numbers (filters only)

Identification of the manufacturer

The innovative shape of the uvex hi-com earplugs reduces the level of sound that normally builds up in the inner ear when wearing hearing protection. Integrated cavities result in a larger surface area in the direction of the eardrum. The earplugs provide softer acoustics and absorb disruptive noises – they also allow excellent speech perception.

The ergonomically pre-shaped uvex x-fit disposable earplugs are suitable for use in extremely loud environments. The soft foam of the earplugs provides a high level of comfort.

uvex RX
cd 5520

uvex RX cd prescription safety frames

Featuring uvex duo component technology, the uvex RX cd collection has been designed to provide both high levels of protection and comfort.

Unlike conventional designs, all protective functions are fully integrated into the frame, requiring no separate side guards. The wraparound design offers the perfect fit and maximum protection thanks to wide side arms and ergonomic curvature of the lens. As with all uvex models, only the highest quality plastics are used in production.

- ✓ Range of stylish colour combinations
- ✓ All protective functions are fully integrated into the frame design
- ✓ Sporty arms made from a combination of soft and hard components to ensure increased comfort and non-slip fit
- ✓ Good fit with anatomically shaped nose bridge
- ✓ Certified eye protection to EN 166 (note: due to EN 166 requirements, it is not possible to purchase frames without lenses)

Please contact your local uvex representative for our full range of prescription frames.
