PPE solutions for the maritime and shipping sector

The UK maritime industry is a vital part of the nation's economy, however it also comes with inherent risks. To ensure the safety and well-being of those working in this sector, it's imperative to prioritise the use of appropriate Personal Protective Equipment (PPE).

The harsh maritime environment poses hazards such as such as slips, trips and falls on wet or uneven surfaces, abrasions from ropes, prolonged exposure to high noise levels from machinery, hazardous chemicals and harsh weather conditions. All of these hazards demand specific PPE to protect workers.

Workers in the maritime industry are exposed to a variety of hazards, including:

Slips, trips and falls

Back of hand impact injuries

Hearing risk from machinery

Eye injuries from moving parts

Reflections/glare from surfaces

Exposure to the elements

With protecting people at its core, uvex PPE incorporates numerous technologies to enhance safety, functionality and wearer comfort. By doing so, our products not only help protect against workplace hazards, but can also help prevent long-term health risks and enhance employee wellbeing - which in turn has a positive effect on performance and productivity.

At uvex, we recognise that sustainability is a key issue

and embrace our responsibility in addressing it. Rooted in our mission of "protecting people," we are committed to safeguarding the environment, integrating sustainability holistically into all our processes.

We are actively working towards sustainability, recognising it as a transformation process that will take time. However, with the support of our sustainability frameworks and our commitment to the European Green Deal, we aim to achieve climate neutrality by 2045 - five years ahead of the European Union's target.

uvex safety eyewear

Anti-fog safety eyewear for reliable protection and comfort

Workers in the maritime sector face a risk of eye injuries from flying debris, moving parts and deck equipment, which can lead to serious damage if adequate protection is not used. Their eyes are also exposed to environmental factors that can impair their vision such as glare from reflective surfaces e.g. water, concrete or bright painted surfaces; wind, rain and UV radiation.

Our close fitting specs are ideal for working in confined spaces, as well as our wraparound and frameless options that offer protection from the elements and glare. All uvex eyewear delivers edge-to-edge crystal clear clarity with 100% UV protection and meets the highest quality standards. Our eyewear also features permanent anti-fog and scratch-resistant lens coating technology for clarity, safety and longevity.

When working outdoors, your eyes are regularly exposed to harmful UV radiation - even when it is cloudy. The result: using insufficient protection poses a risk of dangerous long-term damage. UV protection is, therefore, particularly important for those working in the maritime industry. With uvex UV400 technology as standard across our safety eyewear range, the eyes and surrounding skin are 100% protected against harmful UVA and UVB.

uvex pheos nxt

CBR23, white/black

- Blue light reduction
- Contrast-enhancing
- More comfortable vision

Art. no. 9128223

uvex pheos

Clear, black/green

- Wide field of vision
- Ergonomic side arms with soft ear-pieces
- Excellent protection and wearer comfort

Art. no. 9192225

Goggles for increased impact protection

uvex megasonic planet

Clear, anthracite/jade

- Sustainably produced using recycled and bio-based materials
- Soft face seal for adaptive fit

Art. no. 9320295

uvex sportstyle

CBR 65, white/black

- Blue light reduction
- Excellent fit
- Sporty, lightweight safety glasses

Art. no. 9193064

uvex polavision

polarisation filter, black/white

- Polarisation filter to protect against reflections and irritations (e.g. water surfaces and highly polished materials)

Art. no. 9231960

uvex i-guard planet

Clear, anthracite/jade

- Sustainably produced using recycled and bio-based materials
- Soft, flexible face seal

Art. no. 9143296

uvex super OTG planet

Clear, anthracite/jade

- Sustainably produced using recycled and bio-based materials
- Overspec for prescription spectacle wearers

Art. no. 9169295

uvex i-guard+ planet

Clear, anthracite/jade

- Sustainably produced using recycled and bio-based materials
- Soft, flexible face seal

Art. no. 9143297

Protection against punctures and cuts

Art. no. 60683

HexArmor® Helix® 3023

- 360° cut resistance
- Superior grip and abrasion resistance in dry or oily applications
- Touchscreen capabilities

uvex safety gloves

Safety gloves for changing weather conditions and general handling

Working in the maritime industry, workers need gloves to protect against a wide range of hazards including changing weather conditions, impact and pinch hazards, grip challenges and friction injuries. Handling heavy ropes, cables, and wires requires excellent grip to prevent slips, while also safeguarding against crush injuries, abrasions, friction burns and cuts. The uvex range of safety gloves is subject to the most stringent control measures, ensuring first-class quality, reliable grip and a glove solution for almost any workplace hazard.

Cold protection

Art. no. 60592

uvex unilite thermo plus

- Winter glove with two-layer design
- Very good heat insulation
- Cold-resistant flexible coating with good abrasion resistance

Art. no. 60591

uvex unilite thermo plus cut c

- Cut protection winter glove with two-layer design
- Very good heat insulation
- Cold-resistant flexible coating with good abrasion resistance

Moisture protection

Art. no. 60023

uvex profi pure HG

- Outstanding grip in wet conditions
- Heat protection up to 100°C
- Cotton lining for excellent wearer comfort

Art. no. 60278

uvex unilite 7710F

- Outstanding grip in wet and oily environments
- Fully coated with nitrile rubber
- Good abrasion resistance and increased durability

Impact protection

Art. no. 60646

HexArmor® Rig Lizard® Thin Lizzie Thermal 2099

- Interior fleece lining for work in the cold
- HexArmor's IR-X® Impact Exoskeleton™ for impact resistance
- Full double-dip sandy nitrile coating provides superior liquid, grip, and abrasion resistance

Art. no. 60648

HexArmor® Rig Lizard® Thin Lizzie™ 2090X

- Sandy nitrile coating for outstanding grip
- Highly flexible exoskeleton protectors
- Cut protection level E

uvex safety footwear

Robust safety footwear for protection from slips, trips and falls

Wet or uneven surfaces, oil spills, and shifting equipment on decks can lead to slips, trips and falls, posing a risk of serious injury. Being on your feet all day requires footwear that supports the musculoskeletal system.

Our outdoor safety boots water resistant uppers, broad soles and deep treads with channels to disperse water, improving surface grip. Manufactured in our factory in Italy, uvex safety footwear is incredibly comfortable to wear thanks to lightweight designs and carefully chosen materials.

Art. no. 65032

Art. no. 68742

Art. no. 68722

Art. no. 68752

uvex 2

Boot S3L

- Cushioning PU midsole and directly moulded PU scuff cap
- Hydrophobic leather upper – reliable protection against water ingress
- Sizes 3-6.5 (35-40) produced on a female last

uvex 3

Boot S3

- Modern, highly robust safety boot
- uvex Waterstop leather upper
- Optimum shock absorption and energy return
- Sizes 3-6.5 (35-40) produced on a female last

uvex 3

High-top boot S3

- Modern, highly robust safety boot
- uvex Waterstop leather upper
- Optimum shock absorption and energy return
- Sizes 3-6.5 (35-40) produced on a female last

Art. no. 62733

Art. no. 67323

Art. no. 67313

Art. no. 67373

Art. no. 67363

Heckel SUXXEED OFFROAD

Boot, S3L,

- Comfortable and robust safety boot
- Water-resistant oiled grain leather
- PU2D sole, resistant against oil, hydrocarbon, and chemicals

Heckel Maccrossroad 3.0

Boot or shoe, S3L, MACSOLE®

- Comfortable and robust safety footwear
- Water-resistant full-grain leather upper
- Robust, long-lasting rubber outsole and scuff cap

Heckel Maccrossroad 3.0

BOA®, S3L, MACSOLE®

- Comfortable and robust safety footwear
- Individually adjustable BOA® quick release lace solution
- Robust, long-lasting rubber outsole and scuff cap

Art. no. 67353

Heckel Maccrossroad 3.0

Boot META, S3L, MACSOLE®

- D3O® Metatarsal protection
- Water-resistant full-grain leather upper
- Robust, long-lasting outsole and rubber scuff cap

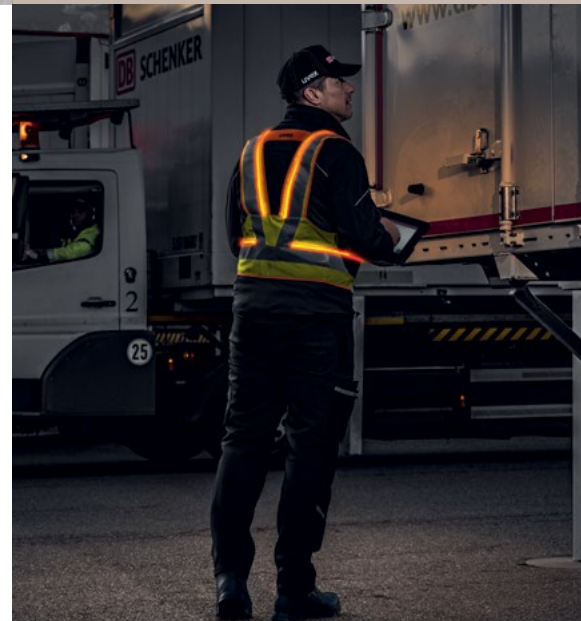

Art. no. 67643

Heckel MACTRACK 3.0 GTX

Waterproof boot S7L

- GORE-TEX® lining, keeps feet dry
- Water-resistant full-grain leather upper
- MACSOLE® ADVENTURE 3.0 rubber sole

uvex head protection

Head protection for working at height and falling objects

Working within the maritime industry can mean working in high-risk environments and accidents can happen. In 2022, 11.8% of deaths and injuries of merchant vessel crew were related to head injuries. Head injuries can be caused by falling objects, striking fixed objects or low ceilings in confined spaces. Between our helmet, faceguard and bump cap we have a variety of options to best support the head protection needs for your work circumstances.

Art. no. 9790211

uvex pheos faceguard

Flexible face protection system

- Lightweight, modern face protection system
- Slim design and wide field of vision
- Polycarbonate lens

Art. no. 9773050

uvex pheos alpine

Safety helmet for working at heights

- Multifunctional safety helmet / chin strap included
- Wheel ratchet system for variable width adjustment
- Available in: white, yellow, orange, red, green, blue, black

Art. no. 9772030

uvex pheos B-WR

Safety helmet

- Safety helmet with slot on the front for helmet lights
- Wheel ratchet system for variable width adjustment
- Available in: white, yellow, orange, red, green, blue, black

Art. no. 9794401

uvex u-cap sport bump cap

- Sporty bump cap
- Available in size 55 to 59 cm or 60 to 63 cm
- Impact protection in accordance with EN 812

uvex hearing protection

Easy-to-use hearing protection

Extended exposure to high noise levels can lead to gradual, yet permanent and irreversible, hearing loss so it is imperative maritime workers have the appropriate hearing protection equipment. Easy-to-use hearing protection shields from noisy machinery, vehicles and moving parts such as shipping containers as well as helping with clear communication.

Art. no. 2600004

uvex K4

Earmuffs SNR 35 dB

- Earmuffs in high-visibility design
- Variable length adjustment for perfect fit
- Extra-soft memory foam ear cushions for excellent wearer comfort

uvex

Art. no. 2600001

uvex K1

Earmuffs SNR 28 dB

- Ear muffs with length adjustment
- Soft foam ear cushions
- Padded headband for wearer comfort

Art. no. 2600201

uvex K1H

Helmet earmuffs SNR 27 dB

- Length is easily adjustable for a perfect fit
- Suitable for all uvex safety helmets
- Soft foam ear cushions

Art. no. 2124018

uvex xact-fit reusable

Reusable hearing protection SNR 26 dB

- Reusable earplugs with thumb indentations
- Available in two sizes, S or M/L
- In a practical, reusable mini box

Art. no. 2124001

uvex xact-fit planet

Disposable hearing protection SNR 26 dB

- Disposable earplugs with thumb indentations
- Oval-shaped earplugs for optimum fit
- Replacement pods available

Art. no. 2112100

uvex hi-com

Disposable hearing protection SNR 26 dB

- Low sound absorption and excellent speech perception
- Available with or without cord
- Oval-shaped earplugs for optimum fit

Art. no. 2112101

uvex x-cap

Banded hearing protection SNR 23 dB

- Ergonomically shaped banded ear protector
- Oval-design, soft foam earplugs
- Replacement earplug pods available

Art. no. 2125361
