# uvex aXess one

safe. active. connected.

#### **RAL – real active listening**

Active listening function with the ability to individually adjust the volume of ambient noise. Safe application thanks to integrated sound level limiter.

#### **Bluetooth® 5.0**

Good sound quality, fast data transfer and a large range with optimised energy consumption.

#### **Dual connection mode**

The hearing protection can be paired with two Bluetooth devices at the same time.

#### **Certified hearing protection**

Attenuation: SLC80 27dB

#### **Audio streaming**

Ideal for monotonous work.

#### **Two surround-sound microphones**

For reliable transmission of ambient noise.

#### **Voice microphone**

Ensures optimal voice quality.

#### **Status messages**

The audio assistant provides you information through voice prompts (“Bluetooth connected”), so there’s no need to remove the hearing protection in hazardous areas.

#### **Suitable for outdoor use**

Suitable for dusty and damp working areas thanks to sealing caps.

#### **Hands-free telephony**

Make calls without interrupting your work thanks to Bluetooth connectivity.

#### **LED display**

Signals your current work mode, e.g. whether you are making a phone call or are available.

#### **Unique function keys**

Can be felt easily and can also be operated even when wearing gloves.

#### **External audio input**

Connects wireless devices or media players via a cable.

#### **Charging socket USB Type-C**

Fast charging time thanks to higher performance. Easy handling thanks to rotationally symmetrical connectors.

# Hear what's important

The smart hearing protection for greater occupational safety

## Outdoor microphones for secure communication

uvex aXess one are active electronic earmuffs with RAL function (real active listening). This function gives the user the feeling of not wearing hearing protection and of actively participating in the environment with hearing protection. This makes communication possible and warning signals can be perceived better. The volume of the ambient sounds can be set individually.

For safe hearing protection, the maximum output level is limited. The level gain below the sound level limiter is very helpful, for example when adjusting machines or performing diagnostic work.

## Conveniently answer calls via Bluetooth®

uvex aXess one connects to your smartphone via Bluetooth 5.0, meaning you no longer miss important calls and can make them without interrupting your work. Dual mode allows you to add another device if needed.

Calls can be answered quickly and easily using the function keys on the earmuffs, so both hands are free when you make calls. The large radio range ensures that paired devices can remain in a protected location rather than at the workplace.

### Protection against dust and moisture

Closure caps seal connector sockets.
