C300 WET

C300 WET PLUS

uvex Point of Difference	Benefits
uvex Bamboo TwinFlex® Technology	Good level of cut protection and outstanding wearer comfort
EN388:2016 TDM cut level C	1,240 grams (12.4 Newtons) of cut resistance - Level C $\geq 1,020$ grams (10 Newtons) $\leq 1,530$ grams (15 Newtons) - Level B ≥ 509 grams (5 Newtons) $\leq 1,020$ grams (10 Newtons)
uvex climazone Technology	High breathability due to higher moisture absorption (bamboo is 50% more absorbent than cotton - nylon is 0% absorbent)
High performance elastomer (HPE) coating	Impermeable to liquids with good abrasion resistance ensuring long life in service
Dip coated HPE coating	Coating is only on the outside of the glove and does not penetrate through the material therefore leaving the bamboo natural fibres in contact with the skin decreasing the risk of skin irritations
