Visionary technologies at a glance

## uvex megasonic CB

The revolutionary lens design of the uvex megasonic CB does not restrict the wearer's field of vision, delivering edge-to-edge, crystal-clear vision – even under difficult conditions.

The custom bridge is specially designed for an Asian fit.

The spacious internal volume and specifically designed frame recesses accommodate side arms for spectacle wearers, delivering a universal fit, and ensure the same level of protection across the whole workforce. The sporty, ergonomic design and ultra-comfortable fit make these goggles a reliable addition and allow you to get on with your day, without distraction.

Revolutionary goggle with exceptional field of vision

uvex's proven supravision coating technology

Unique frameless lens design with easily exchangeable lens

Custom bridge version for Asian fit

Soft, adaptive face seal

OTG compatible with frame recess for side arms

30 mm wide and easily exchangeable headband

Highly compatible with other items of uvex PPE

protecting people
