## uvex OTG SN CB

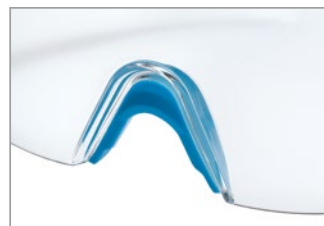

The uvex OTG SN CB is specially designed for an Asian fit and comes in a fashionable and attractive design. The valuable combination of a soft nose, a soft brow guard and duo-component side arms ensure that the uvex OTG SN CB offers a very comfortable and non-slip fit. The side arms can even be individually adjusted. Providing enough inner volume, the uvex OTG SN CB can also be worn as overspecs making it a product for everyone.

**Fashionable design**

**Custom bridge version for Asian fit**

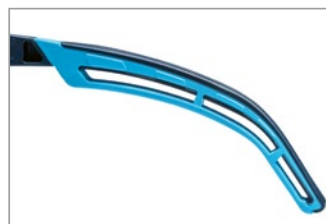

**Soft nose directly injected onto lens**

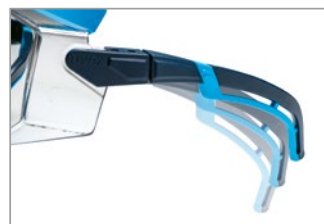

**Soft brow guard directly injected onto lens**

**uvex supravision coating technology**

**uvex duo-component technology**

**Adjustable side arms**

**Suitable as overspecs for prescription wearers**
