

uvex

uvex 2 trend

Safety is trend

Safety class

Heel marking for instant recognition

clima zone

Optimised breathability for dry and sweat-free feet

Textile penetration resistance

Flexible textile penetration resistance, tested with 3 mm nail

Lacing system

Ergonomic lacing design enhances stability across the midfoot

Assembly, production, indoors or outdoors — uvex 2 trend safety shoes offer **well-established technologies** in a powerful entry-level collection for medium areas of application. The anti-twist heel cap enhances the robust protective elements, providing extra ankle support with every step. The variety of materials and features ensures the ideal model for **a wide range of applications**. Reduced weight and the polyurethane outsole provide a comfortable fit.
