

uvex

stylish. safe. sustainable.

uvex pure-fit

designed to recycle

Thanks to an innovative new production technology, the uvex pure-fit can be manufactured fully automatically from just one material without the need for additional assembly. It is made entirely of polycarbonate and is therefore 100% recyclable – just like the product packaging. This makes the uvex pure-fit an extremely sustainable solution.

Not just innovative but comfortable too: These safety spectacles are extremely lightweight. The flexible side arms fit perfectly to any head shape and ensure a secure hold. The uvex pure-fit is available in two different versions: uncoated and, of course, coated with the proven uvex supravision coating technology.

Frameless and innovative lens design
for an optimum, unrestricted field of vision

x-tended sideshield
for additional side protection

Flexible side arms
for a perfect fit and secure hold without creating pressure points

reduced to the max
pure, ultra-lightweight safety eyewear made of polycarbonate, weighing only 19 grams

With proven uvex supravision coating technology or uncoated – but always with UV400 protection

100% recyclable

protecting people
