

A person wearing a white lab coat, blue hairnet, white face mask, and blue gloves is walking from left to right in a laboratory setting. They are wearing white safety shoes. The background features a tiled wall, a window, and a large white container on the left. The floor is made of metal grates.

uvex

Sporty look.

Sporty design meets sophisticated functionality: The uvex 1 sport white range is both youthful and stylish combined with first-class wearer comfort, thanks to its lightweight design, climate optimised high-tech materials and ergonomically shaped outsole.

uvex 1 sport white – the ideal companion for daily working life and more.

Hygienic.

The almost seamless outer finish prevents unwanted contaminants from getting inside the shoe when working in sensitive hygienic areas. The shoes and the removable comfortable climatic insoles can both be washed at 30°C.

A colour identifier can be added to the hook-and-loop fastening as an option.

Lightweight and ergonomic design.

uvex 1 sport white sole

- ergonomically designed outsole comprising dual-density polyurethane for light applications
- extremely comfortable underfoot
- suitable for general use on almost all surfaces
- excellent anti-slip properties (SRC)
- abrasion-resistant
- meets the ESD specification with leakage resistance < 35 megaohms
- free of paint wetting impairment substances

uvex 1 sport white · Shoe S2 SRC/S3 SRC

General features:

- modern, metal-free, ultra-lightweight and flexible S2 or S3 safety shoe
- upper made from hydrophobic microfibre material that is easy to clean
- minimal number of seams to reduce contamination
- made from synthetic materials, so suitable for people allergic to chrome
- washable at up to 30°C
- all sole materials are free of silicones, plasticisers and other paint wetting impairment substances

Protection features:

- meets the ESD specification with volume resistance under 35 megaohms
- Metal-free uvex xenova® protective toe cap – compact design, anatomical shape, good lateral stability and no thermal conductivity
- ergonomically designed outsole made from dual density polyurethane with outstanding shock absorption and excellent slip resistance
- penetration-resistant, non-metallic midsole in accordance with current safety standards, does not restrict flexibility of the shoe (S3 shoe)

Comfort features:

- outstanding wearer comfort thanks to a newly developed last and climate-optimised, breathable materials
- virtually seam-free construction to eliminate pressure points
- removable antistatic comfortable insole, with a moisture transport system and additional shock absorption around the heel and forefoot
- padded dust tongue (S3 shoe) and collar
- sizes 35 to 40 have been produced using a women's last

Areas of application:

- light applications
