uvex top grade — the best choice

High-quality cowhide leather

- for enhanced abrasion, cut, tear and puncture resistance
- consistent leather quality with no stains

Tested for safety

continually checked for harmful substances, as per EN 420

High material quality

increased cost-effectiveness due to longer service life

Knuckle protection

wide and double-stitched

Excellent wearer comfort

- high-quality workmanship of the materials
- lining sewn over the entire surface of the palm and fingertips

Rubberised gauntlet

- remains firm and stable when the glove is put on and removed
- reliably protects the wrist from impacts and cuts
- reinforced at the hem and back of the hand for added strength

Our qualified partners guarantee consistently high leather quality, ensuring that the uvex top grade safety glove series meets our demanding leather requirements.

As part of quality assurance, uvex safety gloves are regularly tested for harmful substances, in particular chromium (VI). We also regularly check for AZO dyes and PCP.
