

A male scientist with light brown hair and a beard, wearing a white lab coat and clear safety goggles, is holding a test tube with a yellow liquid. He is looking directly at the camera with a focused expression. The background is a blurred laboratory setting with shelves containing various bottles and equipment.

uvex

uvex CR

Autoclave safety eyewear that goes further

protecting people

**There is autoclavable safety eyewear.
And then there is uvex CR.**

Innovative coating technology

The first autoclavable safety eyewear with anti-fog performance

uvex has developed the first autoclavable safety goggles with anti-fog coating for specialist requirements in laboratories, clinics, cleanrooms and food manufacturing.

From ultra-light safety spectacles to goggles with a panorama lens, uvex CR is the ideal safety eyewear for all areas of application and specifically designed for repeated autoclave sterilisation.

Beside an exemplary level of protection, uvex CR eyewear offers complete functionality, outstanding wearer comfort and innovative design. First class safety eyewear "Made in Germany".

uvex CR – professional safety eyewear which compliments hygiene standards.

uvex CR for medical and pharmaceutical industries

Sterile safety eyewear for every situation

From complex procedures in the operating room to working in Pharmaceutical production, employees must be able to rely on their protective equipment at all times.

uvex CR eyewear is specially designed to meet the highest demands from Medicine and the Pharmaceutical industry. The unique anti-fog coating ensures excellent anti-fog performance, during physically demanding work as well as in extremely warm and damp conditions.

uvex CR eyewear can be autoclaved up to ten times (20 minutes each cycle, at 121°C). If temperatures are higher or sterilisation carried out more frequently, replacement of eyewear is recommended, or lens replacement in the case of uvex ultrasonic CR wide-vision goggles.

**Always have everything in view
with fog free uvex CR safety eyewear.**

A revolution for cleanrooms –
uvex CR with anti-fog coating.

uvex CR for research and development

Fog free safety eyewear for cleanrooms

In some areas, it is not only the person, but also the product which needs to be protected, such as the cleanroom, where a single dust particle could damage delicate components.

Autoclavable uvex CR safety eyewear is perfectly suited for sterile working environments, such as food production. For added measure, uvex safety eyewear fulfills all EN 166 norms and in some cases, (fog free time) exceeds them.

From the permanent anti-fog coating to duo-component technology for maximum wearer comfort, the unique functionality of uvex CR positions it as the optimum protective equipment for use in research and development.

uvex super fit CR

The lightest autoclavable safety spectacles in the world

Non-allergenic material
free of harmful substances

ultra-thin wraparound lenses

Modern uvex super fit CR weighs only 21 g.

lightweight spectacles

The uvex super fit CR is autoclavable and extremely light. The ultra-thin, scratch-resistant lenses offer optimum protection against mechanical hazards.

The innovative anti-fog coating guarantees a clear field of vision, even in high air humidity and extremes of temperature.

uvex super fit CR fulfills the specifications of optical class 1 and all other norms in accordance with EN 166. The eyewear is manufactured in Germany from allergenic materials which are free of harmful substances.

uvex super f OTG CR

Autoclavable safety eyewear for optimum vision

A permanent anti-fog coating on a lens which provides a wide field of vision, ensures excellent wearer comfort, protection and functionality. Its shape enables it to be worn over prescription spectacles.

The extremely flexible soft ear pieces adapt perfectly to the head shape and ensure a secure and pressure-free fit, even when worn for extended periods.

The uvex super f OTG CR is non-allergenic and free of harmful substances. It is "Made in Germany" and meets the specifications of optical class 1 and EN 166 in its entirety.

**The uvex super f OTG CR is suitable for use
over prescription spectacles.**
