uvex CBR65

The ideal tint for civil
engineering

Whether indoors or outdoors, in bright or dark conditions: in civil engineering, your team is exposed to frequently changing light conditions – causing the eyes to tire much faster.

The uvex CBR65 safety spectacles are the ideal solution: the tint provides reliable protection against bright light and also ensures optimum visibility when working in shadow or indoors.

protecting people

uvex CBR65

Contrast

For clear and accurate vision in every situation – even in diffuse and changing light conditions

Bluelight reduction

Protection against harmful radiation from blue light – e.g. ideal for night work with bright floodlights

Relaxed vision

Reduced eye fatigue, even during extended periods of use – improving attention and concentration

65% transmission

Optimum protection from glare – yet bright enough for work in shadow or indoors

The choice is yours

uvex pheos cx2 CBR65

Reliable protection against construction dust

uvex sportstyle CBR65

Impressive lightweight design

soft internal surface

robust outside

innovative lens geometry

X-tended eyeshield

The soft component connected directly onto the lens offers additional protection and comfort

X-Twist technology

Ergonomic adjustment to all head shapes thanks to the slight spring effect of the side arms

Optimum ventilation

The functional safety spectacles provide a pleasant and healthy internal environment around the eyes

9198.064	uvex pheos cx2 CBR65
Frame:	white, black, W 166 FT CE
Standard:	EN 166, EN 172
Lens:	PC CBR65, UV 400, 5-1,4 / W1 FTKN CE
	uvex supravision excellence

Outstanding fit

Extremely soft and adjustable nose piece for a high comfort factor

Maximum wearer comfort

uvex duo component technology with a soft inside surface and robust outside

Flexible and lightweight

The safety spectacles weigh just 23 grams and adjust to individual head shapes

Lens coatings from uvex

uvex supravision excellence

- permanently anti-fog on the inside
- extreme scratch and chemical resistance on the outside
- easy to clean and less susceptible to dirt due to the non-stick nano-technology

uvex supravision extreme

- permanently anti-fog on the inside
- scratch-resistant on the outside
- not fog up as the coating never reaches the point of saturation
- ideally suited for workplace environments with long-lasting exposure to condensation and a high degree of dirt

uvex pheos cx2 and uvex sportstyle is suitable for use by some trades in the construction industry. Further information is available at uvex-safety.com/construction
