# Safe. Innovative. Robust.

The new uvex 2 construction was developed to meet the specific challenges of the construction industry. The construction and engineering industries really put workers and their footwear to the test. In addition to high mechanical stress, extreme weather conditions are often a factor too.

Thanks to their intelligent design and innovative technologies, the uvex 2 construction models offer reliable protection, stability and exceptional comfort.

You can find more information at [www.uvex-safety.com/uvex2construction](http://www.uvex-safety.com/uvex2construction)

**Stability and ankle protection**  
The anatomically shaped heel basket provides stability and protection against twisted ankles, especially on uneven surfaces.

**Increased visibility**  
Reflective side strips provide optimal visibility and safety, especially in poorly lit working environments.

**Safe slip resistance**  
The rough, self-cleaning tread ensures perfect grip without slipping, even on ladders or smooth surfaces.

**uvex waterstop technology**  
uvex waterstop technology reliably protects against water penetration for four times longer than required by the standard.
