

uvex

uvex 1 x-craft

the next level coolness

The uvex 1 x-craft sandals set new standards in **breathability**. The open upper keeps feet dry in warm environments and during strenuous work — ideal for use in production and logistics halls, whose cooling systems often struggle to reduce high temperatures.

- Art. no.: 68121-4
- Sizes: 35-52
- Multiple widths: 10, 11, 12 and 14
- Standard EN ISO 20345:2022: S1 PL FO SC SR
- Upper: textile
- Midsole: PU (up to 15% recycled)
- Outsole: PU

protecting people

clima zone

Dry and sweat-free feet – Breathable materials, minimal layers and a practical design ensure air circulation for long-lasting comfort. The perforated tongue makes breathability visible and noticeable.

i-PUREnrj planet

More energy due to shock absorption – The innovative PU midsole redefines shock absorption and energy return, reducing fatigue. It consists of 15% recycled PU from our in-house production processes.

flex zone

Unrestricted movement when kneeling – The integrated flex groove in the midsole increases flexibility when bending the forefoot and improves comfort, especially during tasks that require kneeling.

bionom x

Improved performance through comfort – The ergonomic design based on biomechanical principles optimises the interaction between shoes, floor and body to support natural movement.
