protecting people

Safety on the construction site

We have developed and selected uvex occupational safety products specifically for the construction sector, so that you can offer your employees the best possible protection in the workplace. The products are tailored to the challenges faced by employees in each of the 12 different trades and offer reliable protection and excellent wearer comfort for a wide range of applications. Whether working in dry or wet environments, indoors or outdoors, in sunny or rainy conditions – we offer the products you need for optimal performance. By doing this, uvex is also pursuing its mission statement, 'protecting people – PPE from head to toe', in the construction sector.

Construction main trade

- Building construction
- Civil engineering
- Public construction
- Road construction works
- Gardening and landscaping
- Private house construction

Construction secondary trade

- Interior work, painters, plasterers, tilers
- Installers, gas, water, electric
- Building fitters, plumbers

Construction associated trade

- Scaffolding
- Construction transport
- Construction waste disposal, construction cleaning

uvex safety spectacles for many applications on the construction site

It is important to protect your eyes in all conditions. For this purpose, we offer safety spectacles with clear or tinted lenses, ensuring optimal glare protection when working outdoors. The perfect fit means that they adapt to many head shapes. Some models feature a self-tinting variomatic coating for indoor and outdoor use. For specific requirements, we also offer goggles for protection against dust and particles as well as overspecs for prescription spectacle wearers. You can count on our reliable protection for many applications on the construction site

Safety eyewear

Available from
May 2025

Art. no. 9122480

uvex ultrashield

tinted grey, white/black

- Cool, sporty design
- Large panoramic lens
- Adjustable nose

uvex
pheos cx2

Art. no. 9198223

uvex pheos cx2

CBR23, white/black

- Large field of vision and excellent protection
- Flexible nose piece, non-slip fit
- Ergonomically shaped side arms

Safety goggles

uvex megasonic

clear, anthracite/blue

- Goggles with frameless lens design
- Optimised field of vision
- Soft face seal for universal fit

Art. no. 9320265

uvex megasonic

tinted grey, anthracite/lime

Art. no. 9320281

MADE IN GERMANY 

uvex pheos cx2
clear, blue/grey

Art. no. 9198257

uvex pheos cx2
tinted grey, white/black

Art. no. 9198237

uvex pheos cx2 sonic
clear, white/black

Art. no. 9309275

- Lightest goggles from the uvex range in a compact design
- Scratch-resistant on the outside, permanently anti-fog on the inside
- Very soft, lightweight textile headband for a secure and comfortable fit

uvex suXXeed

uvex suXXeed
clear, anthracite/blue

- Sporty, dynamic design
- Ergonomic side arms with soft ear-pieces
- Soft, flexible nose piece

tinted grey, anthracite/lime

Art. no. 9181281

Overspecs

uvex super f OTG
clear, black/clear

Art. no. 9169585

- Overspecs for prescription spectacle wearers with hinged side arms
- Extremely scratch- and chemical-resistant on both sides
- Unrestricted peripheral vision
- Sunglare filter (art. no. 9169586)

Safety helmets for increased safety on the construction site

Our extensive range of head protection products provides optimal protection for the most important part of the body – the head.

We offer tailor-made solutions for many areas of application, ranging from building construction and civil engineering, mining and tunnel construction through to road and bridge construction. Additional accessories supplement our collection and ensure that you are optimally equipped for various challenging situations on the construction site.

uvex offers a whole host of colours and customisation options.

uvex pronamic uvex pheos

uvex pronamic S-KR

- Unique, innovative helmet structure
- Shorter brim for a wider field of vision
- Six-point textile band attachment ensures an optimal fit and high level of comfort

Art. no. 9731033

uvex pheos S-KR

- Safety helmet with pre-assembled four-point chin strap and short brim
- Three variable air vents for maximum ventilation
- Six-point textile band attachment ensures an optimal fit and high level of comfort

Art. no. 9772234

uvex pronamic alpine

- Multi-functional helmet
- Maximum field of vision thanks to the optimised design and shape of the brim
- Versatile and adjustable suspension harness with variable wheel ratchet system

Art. no. 9735030

uvex pheos alpine

- Multi-functional helmet for working at heights and rescue operations
- Combines the features of an industrial safety helmet (EN 397) with the requirements for a mountaineering helmet (EN 12492)
- Six-point textile band attachment ensures an optimal fit and high level of comfort

Art. no. 9773250

You can find additional accessories at:
www.uvex-safety.com/en/products/safety-helmets/?f=11704
 or simply scan the QR code

Mips

Art. no. 9735231

MADE IN GERMANY

Mips

Art. no. 9772260

uvex pheos S-KR Mips®

- Safety helmet in a sporty design with maximum wearer comfort
- Mips® brain protection system for industrial safety helmets
- Sturdy, rigid helmet shell also easily withstands lateral pressure

uvex pronamic alpine Mips®

- Multi-functional helmet
- Integrated Mips® brain protection system for industrial safety helmets
- Maximum field of vision thanks to the optimised design and shape of the brim

Art. no. 9774237

uvex pheos forestry

- Specially tailored to the requirements of forestry workers
- Includes pre-assembled chin strap and highly noise-insulating earmuffs
- Fully integrated metal mesh visor with excellent light transmission

Art. no. 9790212

uvex pheos faceguard

PC lens and hearing protection

- Lightweight, modern face protection system
- Slim design and wide field of vision
- Polycarbonate lens and integrated earmuffs

Safety gloves for the construction sector

Optimise safety on the construction site with our safety gloves. We offer the right protection and level of comfort for a wide range of trades. For precise work in dry and slightly damp areas, we offer safety gloves that provide a high level of comfort and sensitivity.

With our models offering additional cut protection, moisture protection and special chemical barriers, your hands are completely protected even in special applications. For heavy-duty applications, such as working in cold conditions or work involving high mechanical stress, we offer gloves with cold protection, impact protection, penetration protection and permanent moisture protection. This means you can count on the right protection no matter what challenge awaits you on the construction site.

Additional hand protection models for cut protection can be found at uvex-safety.com/en/products/cut-protection-gloves or simply scan the QR code

Protection against mechanical risks

Art. no. 60070

uvex phynomic XG planet

- Flexible and extremely robust
- Xtra-Grip coating for best oil grip
- Outstanding abrasion resistance

Art. no. 60028

uvex athletic all-round

- Very good mechanical abrasion resistance
- Perfect fit
- Very good grip

Art. no. 60026

uvex athletic lite xt

- Touchscreen compatibility
- Highly abrasion-resistant coating
- Reduced perspiration inside the safety gloves

Cut protection

Art. no. 60090

uvex Bamboo TwinFlex® D xg

- Bamboo fibre for outstanding wearer comfort
- Extremely durable
- Cut protection level D

Art. no. 60068

uvex phynomic F XG

- Lightweight and sensitive cut protection glove with touchscreen compatibility
- Excellent fit, feels like a second skin
- Cut protection level F

Impact protection

Art. no. 60642

HexArmor® Helix® 1095

- Sandy nitrile coating for outstanding grip
- Highly flexible exoskeleton protectors
- Excellent impact protection for backs of hands and fingers

More information on our hand protection range can be found at uvex-safety.com/en/products/safety-gloves or simply scan the QR code

Chemical protection

Art. no. 60557

uvex rubiflex S XG35B

- Optimal grip properties thanks to the special coating
- Good resistance to grease, mineral oils and many chemicals
- Ergonomic fit and excellent wearer comfort

Penetration and cut protection

Art. no. 60683

HexArmor® Helix 3023

- Excellent cut protection
- Very high moisture resistance and flexibility
- Durable

Moisture protection

Art. no. 60946

uvex compact

- Extremely robust
- Suitable for the most demanding work
- Very good mechanical abrasion resistance

Art. no. 60023

uvex profi pure HG

- Outstanding grip in wet conditions
- Heat protection up to 100°C
- Cotton lining for excellent wearer comfort

Cold protection

Art. no. 60593

uvex unilite thermo

- Winter glove with two-layer design
- Very good heat insulation
- Cold-resistant flexible coating with good abrasion resistance

Safety shoes for optimal protection on the construction site

Well protected with each step – no matter what the conditions. Our safety shoes offer comfort and sufficient protection for light applications in finishing trades, e.g. for installers, floor layers and tilers as well as in drywall construction.

For medium-duty requirements such as in house construction, building construction, civil engineering and construction logistics, you will find shoes that offer an optimal combination of safety and wearer comfort. For particularly demanding work such as road construction, mining and gardening and landscaping, our safety shoes ensure maximum protection and resistance. Our safety shoes are the perfect companion for long working days, withstanding even the most extreme demands.

Light applications

uvex 1 x-craft

Art. no. 68002

uvex 1 x-craft pro

Shoe S1PL

- Sporty, extremely lightweight S1 PL safety shoes
- Breathable distance mesh lining
- Midsole with shock-absorption and energy-return features

Additional foot protection models can be found at uvex-safety.com/en/products/safety-shoes or simply scan the QR code

uvex 1 x-craft

Shoe S3L

- Sporty, extremely lightweight S3L safety shoes/boots
- Breathable distance mesh lining
- Midsole with shock-absorption and energy-return features

Art. no. 68042

uvex 1 x-craft

Boot S3L

Art. no. 68402

uvex 1 G2

Shoe S3L BOA®

- Extremely lightweight S3L safety shoe
- BOA® Fit System for a precision fit to ensure long-lasting comfort
- Outstanding wearer comfort

Art. no. 65962

uvex 1 sport

Shoe S3L

- Modern, extremely lightweight and flexible S3L safety shoes
- Outstanding wearer comfort
- Virtually seam-free construction to eliminate pressure points

Medium-duty applications

uvex 2

BOA

Art. no. 65322

uvex 2 MACSOLE®

Boot S3L BOA®

- Heat-, chemical- and cut-resistant rubber outsole
- Excellent wearer comfort and BOA® twist lock
- Flexible textile penetration resistance

Winter models

BOA

Art. no. 95692

uvex 2 xenova®

Boot S3L BOA®

- Extremely lightweight, versatile S3L safety boot
- BOA® Fit System for a precision fit to ensure long-lasting comfort
- Outstanding wearer comfort

Art. no. 65102

uvex 2 construction

Boot S3

- Water-repellent leather outer shoe material
- Deep sole tread for secure grip and good slip resistance
- Lightweight and robust safety boot

BOA

Art. no. 65363

uvex 2 MACSOLE®

Winter boot S3L BOA®

- Winter boot with warm winter lining
- Hydrophobic leather for reliable protection against water ingress
- Excellent wearer comfort thanks to BOA® twist lock (art. no. 65363)

Art. no. 65303

uvex 2 MACSOLE®

Winter boot S3L

Heavy-duty applications

uvex 3

Art. no. 68722

Art. no. 68632

uvex 3

Boot S3

- Robust, modern and lightweight S3 safety boot
- Extra-wide fit
- Water-repellent leather

sympatex®

uvex 3 MACSOLE®

Boot S7 sympatex®

- Extremely slip-, cut- and chemical-resistant outsole
- Waterproof sympatex® lining
- Excellent robustness and protection thanks to PU scuff cap and PU heel basket

uvex 3 winter models

Art. no. 68772

Art. no. 68782

uvex 3

Tall winter boot S3L CI

- Tall winter boot with warm winter lining
- Water-repellent uvex waterstop leather
- Ultra-cushioning uvex special midsole

uvex 3

Tall zip-up winter boot S3L CI

- Robust, modern and lightweight winter safety boot
- Extra-wide fit
- Warm winter lining

New models

Professional hearing protection for the construction site

Even on construction sites with loud machines and equipment: With our versatile range of earplugs, banded ear protectors and earmuffs, you are always on the safe side. Our active uvex aXess one Bluetooth earmuffs ensure that you can continue to hear important warning signals or make telephone calls while the noise is blocked out. In addition, your hands remain free so that you can continue your work without interruption.
