

uvex

uvex ultrashield

fashion. vision. protection.

The uvex ultrashield is built for professionals who value style as much as protection. Inspired by running and cycling trends, it features a sleek panoramic lens with fashionable tints for crystal-clear vision and an exceptionally wide, unrestricted field of view.

The large panoramic lens guarantees an optimal field of vision without compromising peripheral vision. The nose pad can be individually adjusted for a comfortable and secure fit. Additionally, ergonomically shaped side arms with soft temple ends deliver excellent wearer comfort and a secure hold.

High-performance safety eyewear in a sleek, sporty design.

The **large panoramic lens** guarantees an exceptional field of vision without compromise. With UV400 - 100% protection against UV radiation to 400 nm.

Soft, **adjustable nose piece** allows spectacles to be adapted to the wearer to deliver a comfortable, non-slip and pressure-free fit.

The **ergonomically shaped side arms** with soft temple ends ensure a secure fit and guarantee high wearer comfort with no annoying pressure points.

uvex **polavision technology** protects against reflections and optical irritations outdoors and relieves strain on the eyes, e.g. on reflective surfaces such as water.
