### Assigned protection factors

There are 3 different classes of respirators

	FFP1 Respirators	FFP2 Respirators	FFP2 Carbon Respirators	FFP3 Respirators
Assigned Protection Factor	APF 4	APF 10	APF 10	APF 20
Typical Applications	Low level fine dust/oil or water based mists (hand sanding, drilling and cutting)	Moderate level fine dust/oil or water based mists (plastering, cement, sanding and wood dust)	Options for metal fume, ozone and nuisance levels of certain gases and vapours	Higher level fine dust/oil or water based mists (hazardous pharmaceutical powders, biological agents and fibres)
Easy Applications	Identified by <b>blue</b> lettering on the mask	Identified by <b>orange</b> lettering on the mask		Identified by <b>black</b> lettering on the mask

### Comfort and Fit

The many design features of the uvex com4-air range have been developed with the wearers comfort in mind.

- field of vision
- design and materials
- size, weight and balance
- compatibility with other PPE
- pressure points
- ease of adjustment and secure fitting
- heat and moisture build up
- breathing resistance

Depending on the model, the soft foam or PE sealing lip allows the wearer to achieve a customised seal without risk of leakage.

## com4-air

Protection class FFP2

- Anatomical moulded mask, ensures better fit versus standard cup style masks
- 200g high-quality heavy duty virgin material, food grade hypoallergenic, self-extinguishing, non-woven, skin friendly, polyester base
- Smooth material edges for greater comfort and wearer acceptance
- Seamless adjustable headband for a comfortable, secure fit
- Exhalation valve for easy airflow exchange which reduces the build-up of heat and moisture inside the mask
- Adjustable nose clip ensures an excellent individual fit
- Design ensures a compatible fit with uvex eyewear
- Boomerang seal nose piece. Soft and absorbent for maximum comfort
- Premium quality and higher concentrations of impregnated carbon versus competitors

### Exhalation valve

with a 360° opening ensures very low breathing resistance and a cooling effect climate inside the mask.

### Adjustable nose clip

ensures an excellent individual fit and secure positioning.

### Upper face seal

offers both a more secure positioning of the mask and increased wearer comfort.

### Continuous headband

can be adjusted for optimum fit.

Product code 8799700

### uvex com4-air FFP2 NR

- Particle-filtering cup shape mask without exhalation valve
- Soft material edges for high wearing comfort
- Continuous head band for a comfortable and secure fit
- Flexible and adjustable nose clip
- Soft sealing lip guarantees a secure, comfortable sealed position of the mask
- Compatible with uvex safety eyewear

	uvex com4-air FFP2 NR
<b>Art. no.</b>	8799700
<b>Version</b>	FFP2 without valve
<b>Colour</b>	white
<b>QTY per box</b>	15

Product code 8799701

### uvex com4-air FFP2 V NR

- Particle-filtering cup shape mask with exhalation valve
- Exhalation valve reduces breathing resistance and build-up of heat and moisture in the mask
- Soft material edges for high wearing comfort
- Continuous head band for a comfortable and secure fit
- Flexible and adjustable nose clip
- Soft sealing lip guarantees a secure, comfortable sealed position of the mask
- Compatible with uvex safety eyewear
